## Customer Reviews

Beautiful map of the wine regions. Size is great! The colors of each region are very helpful. There is only one thing I would change. It would be great to cut out all the non essential areas in the map (like sierra foothills) and fill that space with a visual where you zoom in and see the actual locations of the wineries. I realize that is a lot to ask, but nothing is impossible. Other than not having a spot to place a pin of all the wineries I have visited, this map is wonderful.

I bought this so I would know where my wines are coming from, when I buy them from a crowd-sourced winemakers organization. I could have just saved the screenshot to disc and looked it there, but I like having it on my wall. The paper is quite heavy.

100% satisfied with this CA wine map. Will be framed and displayed next to our wine cellar.

High quality, exactly as advertised, shipped professionally. Highly recommend.

While a person can use books with maps (Word Atlas of Wine), these are a pleasure to share at my friends' wine tastings and dinners. They're framed and we put them up on easels, and guests get a kick out of them. I have all of Steve De Long's products, and they're all first rate.

It was just what I wanted. I had it framed. Realize that there are new AVAs every year so it is a little outdated.

Perfect, just perfect. well made and quality designed

I laminated mine! Amazing
