# Reusing And Recycling (Help The Environment)

## Synopsis

This series introduces very young children to the concept of caring for the environment in an attractive and accessible way. Based on children's real-life experiences, the books focus on things children can do to help the environment and keep the world around us clean. In this book, children learn about reusing and recycling common household materials including paper, glass, plastic, and metal.

## Customer Reviews

This series introduces very young children to the concept of caring for the environment in an attractive and accessible way. Based on children's real-life experiences, the books focus on things children can do to help the environment and keep the world a --Education Dealer

Charlotte Guillain has written nearly 100 books, both fiction and non-fiction. Some of her best-selling titles for Raintree include the 'Space' and 'Growing Up' series. Among her forthcoming titles are Pandarella and Goldiclucks and the Three Bears in the 'Animal Fairy Tails' series, and 'The Frilly Goats Fluff' which will be published by Franklin Watts in June 2012. Before writing children's books, Charlotte worked as a bookseller, a teacher of English as a Foreign Language, and an editor.

Excellent materials for all the books I bought but if teachers can get special discount because we need tons of class room resources and books for our kiddos.

Very informative about taking care of our environment.

This was a great addition to my collection of books on recycling. I am a teacher as am pro-green.
