# Exercises For Weather & Climate (9th Edition)

## Synopsis

NOTE: You are purchasing a standalone product; MasteringMeteorology does not come packaged with this content. If you would like to purchase both the physical text and MasteringMeteorology search for 0134035666 / 9780134035666 Exercises for Weather & Climate Plus MasteringMeteorology -- Access Card Package, 9/e Package consists of: 0134041364 / 9780134041360 Exercises for Weather & Climate 0134110854 / 9780134110851 MasteringMeteorology with eText -- ValuePack Access Card -- for Exercises for Weather & Climate MasteringMeteorology should only be purchased when required by an instructor. For Introductory courses in Meteorology Exploring Meteorology with Hands-On Experiments Exercises for Weather & Climate encourages readers to review important ideas and concepts of meteorology through problem solving, simulations, and guided thinking. Available for use standalone or with Pearson's introductory meteorology textbooks, the graphics program and computer-based simulations and tutorials help readers grasp key meteorology concepts. Now with integrated links to mobile-enabled Pre-Lab Videos, and assignable Pre- and Post-Lab quizzes in MasteringMeteorology, this manual and technology program is designed to complement any introductory meteorology or weather and climate course. Also available with MasteringMeteorology MasteringMeteorology is an online homework, tutorial, and assessment product designed to improve results by helping students quickly master meteorology concepts. Readers benefit from self-paced tutorials that feature immediate wrong-answer feedback and hints that emulate the office-hour experience to help readers stay on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

## Book Information

Spiral-bound: 244 pages

Publisher: Pearson; 9 edition (January 9, 2015)

Language: English

ISBN-10: 0134041364

ISBN-13: 978-0134041360

Product Dimensions: 8.3 x 0.4 x 10.7 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 2.5 out of 5 stars 2 customer reviews

## Customer Reviews

Greg Carbone is Professor of Geography at the University of South Carolina. He received his Ph.D. from the University of Wisconsinâ “Madison. His research interests are in climate variability and change and in climate impacts. His most recent work examines the spatial and temporal nature of drought and the use of climate change scenarios for decision making. He regularly teaches meteorology and climatology courses.

Rented the digital version, but it is not good, since it is impossible to download it or transfer it to my computer. I cannot even return it for a refund so I can get the printed version.

Overall, this exercise book was good for my class. I am a broadcast meteorology major and this helped me understand the basic concepts of weather. I was surprised to learn as much new material as I did, seeing as how much I have studied weather since I was younger. Some of the exercises were a little hard to follow along, but a good instructor can help you walk through it.
