Stairway To Hell: Rescuing Teens From Their Well-Planned Destruction

Synopsis

Sasha was only 15 when disaster struck. At a rave in Los Angeles she took the popular drug, Ecstasy. After a violent reaction, an ambulance raced her to the hospital. On the way, she experienced seizures, multiple organ failure, and slipped into a coma. Eventually, Sasha was removed from life support and died. Sasha's grieving mom recalls, "I was supposed to be planning her Sweet Sixteen party. Now I have to plan her funeral." Tragically, Sasha's death was not an accident. It was well planned by a powerful unseen enemy who has perfected a step-by-step plan to ruin teenage lives. He has used it on many other teenagers. Now he may be after yours. His only fear is that you will discover his plan and help your teen escape his deadly grip. For over six years, Rick Jones helped run a Christian home for troubled teenagers. While there, he saw many teenage lives miraculously transformed. His unique position and first-hand experience allowed him to discover that the devil is using the same basic step-by-step plan to destroy all young people. That plan is exposed in this eye-opening book that talks straight to teens in a way they can't resist. No fluff, each page tackles gritty problems teenagers face every day: Drug abuse, Alcohol abuse, Sex, STDs, Suicide, Peer pressure, Satanism, Rebellion, Occultic computer games, and so much more. Teenagers who appear to be doing great need this book. Those being tempted by drugs or other teen-related issues need it even more. With over 100,000 copies in print, many teens have been rescued after reading this short book. Revised in 2016 so it's up to date.

If you are the parent of a teenager, there's a good chance that you are completely out of the loop in some of the most important areas of your child's life. And that could cost your child dearly. Let me explain. For six years, I worked at a Christian home for troubled teenagers. While there, I dealt with teens having every problem imaginable. I also learned first-hand that the destruction of teens is not a coincidence. Their ugly and gruesome deaths are the well-planned work of an extremely powerful and unseen enemy. Day after day, I interviewed parents and their children. And one sad reality I saw repeatedly was that Satan has devised clever ways to stop teens from sharing the most serious concerns on their hearts with their parents. It used to be called the generation gap, but it's just as real today. As a result, parents often have no idea what's going on inside the heads of their children. No clue about drugs! I remember one set of parents who were positive that their son had never taken drugs. But when they described the problems he was having, it was obvious. When I brought their son into my office, my first question was, "So, how long have you been taking drugs?" "About two years," he matter-of-factly responded, as he listed the many different types of drugs he had taken. I asked him if his parents had any idea. He replied, "Nah, they're clueless." That's a big part of Satan's plan. He knows you would help your child if you could, so he cuts off communication. There is hope! That's why I felt it was so important to write this book. Teens WILL read it, and relate to it. Many parents have reported that their children simply couldn't put it down. And the information it provides is invaluable. It shows teens the step by step plan Satan is using to destroy them. It also includes the one and only way for them to escape from the stairway to hell. Many teens have been saved and had their lives miraculously transformed after reading this book. If you know your teen is struggling with serious issues, this book can help. If you think your teen is doing great, this book may be far more needed than you know.

TEENAGER, Do you know...Satan's Top Secret plan? What REALLY happens when you get high? How sex can destroy you? Why teens are ending it all? That D&D is more than just a game? Why teens are murdering their friends? You need to know the answer to these and many other questions. Young people are being wiped out in record numbers because they have no idea what's going on behind the scenes. In this book you will learn the REAL cause of your problems... and the ONLY solution. If you don't want to be the next victim, you need to learn how to get off the stairway to hell.

A good eye-opener for young teens

Excelent book.

Rick made some great points regarding the evils that lurk in our society that pull our teenagers away from God. The only solution that young people have is the Cross of our Lord Jesus Christ. He is the answer.

We had to read this book for school. It really opened my eyes on all the worldly things. This book was definitely a good testimony to teens everywhere. I'm so blessed that I had the chance to read this book(:

...and I couldn't believe the way it twisted every subject matter it touched. Instead of acknowledging that the kids in the book were obviously deeply troubled and needed help, BEFORE they had their experiences with etc., it instead blamed everything on the music, the board games, etc. This type of idealism is the philosophical equivalent to denial, and is just another typical fear mongering tactic that Christians use that has led to horrible things like the Inquisition, witch burning (a horrible way to die for so many poor innocent women), and even more recent tragedies, like the parents recently who didn't give their children food or medicine when they were sick (saying that they trusted God to heal them), which resulted in the children dying after suffering for weeks. The part that made me sick reading it though is not that it attacked everything in such a clueless un-researched fear-mongering way, but that it ignored the serious issues the children were facing by blaming media and everyone else and throwing bible verses at it. It teaches you to be ignorant and mentally undeveloped. It is unfair both to the subjects it attacks, and the children who were never understood, but instead were used as tools to ratchet up the weekly 'converted' chart numbers. This book does nothing to deal with the real issue. There are no tips on how to recognize or deal with trouble people. Just the same old ignorance. This book helped me with a bondage I had. It was called Christianity. I loved God, I read the bible every day, and wanted to spread the love of the lord even to people that were different than me. But I got sick of being associated with such stupid people who did nothing to feed me spiritually, but instead sheltered themselves while awaiting their treasure in heaven, instead of giving me the faith to realize Christians have treasures on earth, such as God's unfailing love. While I have lost my way spiritually, I have walked with God for so long, I find myself incapable of being in hate or depression for a long period of time. I still want the best for everyone, even those that have wronged me, or who I am disgusted by. I find myself forgiving and loving those who don't deserve it. I do this because at one point, I had a connection with a higher being, NOT a religious system that

worships ignorance, practices intolerance, and hides behind a book it continues to translate and interpret for their own purposes.

I have come to deeply distrust anything published by Jack Chick. That is a long story in itself. If you check out my review on his book "Did the Catholic Church Give Us the Bible?" You will see why. I was once an avid reader and supporter of Jack Chick's materials. I used his tracts and books to evangelize the lost. Now I would be embarrassed to do so, and when I caught my daughter reading one of his booklets I still had lying around, I was mortified that my daughter might be infected with his historical lies and doctrinal distortions. Anyway, I read Stairway to Hell during that period of my life and reading all the negative reviews here, they sound eerily like the conclusions I have come to, even though I am an Evangelical Christian. Jack Chick has a certain mentality, and he published the books of authors who think like him. It is paranoid and fearful look at the world, which sees a demon behind wall, and lurking behind every bush. I do still believe in the supernatural, but my feeling is that Chick's version of it is wrong. So, the below review was written at that time. I still agree with the bulk of what I wrote here, though I have no knowledge of Dungeons and Dragons. I can only speak from my own experience and tell you that my mind had gone down a deep dungeon of immorality and wickedness before Christ shone His light on me.-----Funny how people can look at facts and still say this book is rubbish! The stories are here. Another excellent resource is: They Sold Their Souls For Rock And Roll (Two Disc Set) They Sold Their Souls For Rock And Roll [DVD] I found this book both informative and disturbing. Coming from a background of drugs and heavy metal music, I know many of these stories to be true. From drug induced schizophrenia to deep bouts of depression aggravated by the evil music I fed my soul. From suicidal thoughts, to murderous, perverted and heinous thoughts. The spiritual diet young people are being fed is evil, pagan, anti-God and is truly leading them on a stairway to hell. However, and that's a big however, there is hope. We can choose to turn from these things which stink with the stench of death, and turn to Jesus who offers us hope, life and peace; through an obedient, love-faith relationship with Him. An excellent book on this topic is: One Heartbeat Away - Your Journey into Eternity by Mark Cahill One Heartbeat Away

The information in this book needs to get out to youth and everybody else. Satan is playing us all for suckers and using us as pawns. That should make us angry. Instead people get mad at whistle blowers like Rick Jones who write about the devil. Could this book have been written better to perhaps reach more people? I think so. Sometimes when people are pushed, even with the truth,

they push back. We stubborn humans like to make up our own minds about things. This book at times becomes almost a rant (and understandably because people are dying physically and spiritually as a result of the deception that is being exposed here). Perhaps a bit more subtlety would be more persuasive. My knee jerk reaction would be to take this straight forward, shoot from the hip, tell it like it is approach. And perhaps that is what God wanted with this book. I will try to bring the same message but through allegory and drama, so that I'm not telling people what to people - but showing them a picture of life and letting them see and decide for themselves that Satan is real and he is deceiving them. One thing that could have been done differently is to examine rationally some concerns that teens might raise - such as: why do only a small percentage of dungeons and dragons players commit the mayhem referenced in the book?
