# BLOGGING

**GETTING TO  
\$2,000 A MONTH  
IN 90 DAYS**

**ISAAC KRONENBERG**

## Synopsis

Isaac Kronenberg does it again with another fabulous blogging book that goes above and beyond anything else out there! This latest book by Kronenberg is the most advanced blogging book on the market, teaching nothing but the most effective blogging monetization strategies that exist to get your blog from zero to \$2,000 a month in 90 days. Everything in this book is based on real strategies currently used by top-earning bloggers. Whether you're new to blogging or an advanced blogger, if there was some magic pill that could take you from nothing to earning a full-time income from a blog, then this book is the closest thing in existence to that magic pill. If you're serious about earning an income blogging, then this book will be the best book which you've ever read on the subject.

## Customer Reviews

This book has a good introduction and is well written. Everything I need to learn about blogging can be found in this book. It has all the information you will need to get started. This is an excellent

reference book for information that you may know about and a great refresher for some things you may have forgotten. Definitely a good book for me as I'm interested in starting a blog.

Very logical no fluff approach to a successful blog. Inspirational and realistic about the work required and techniques to employ. I also liked his warning about blogging with a negative attitude and only to make money. Would have liked to have seen an actual example of a product review and a formula or exact format for this . All in all, would highly recommend.

For Smarts, I guess, Isaac has it. He sells a ten cent book for ten dollars. I was a sucker enough to purchase it. He mostly references back to the Internet for additional information. The Green People a tree huggers must love him for saving paper. I hope to apply some of his information, together with that obtained from others, and maybe get some of the ten dollars back 200 times. But it will take hours and hours of work to do so. It may turn out his experience was beneficial. In his marketing of the book, I think he ought to have warned us at how well he has monetized his tiny, wee, little book.

Good information that assist newbies with how to on blogging. I recommend this for all. Get a copy and study this material.

I really loved this book. I felt that Isaac does care about his readers, and want to help them achieve their goals. I learned so much from this book, that I have already recommended it others. Great job, and well worth reading and the money.

This is an easy to understand guide to help monetize your blog. There is work to be done but it is attainable if you follow the instructions.

I found this book to be very helpful and useful. It puts a better perspective on blogging for an otherwise confused mind.

This book talks a lot about talking a lot about blogging. There is no real content. I can't even say it's beginner level as it appears that the author enjoys to hear himself talk. At every turn, he references for the reader to "search" online about how to do the thing he is writing about us learning to do. I believe every person who shows enough interest in blogging to want to buy the book already knows

that they will have to get a website, find affiliates and focus on SEO. The reason why one would buy the book is to advance our knowledge about those things we already know we will need to do. This book left me with no more knowledge about how to achieve those 3 essential items. This author is using his own advice on creating a "bonus" for an affiliate link by selling this book. ...feeling dumb that I wasted my money on it.
