Pasta Revolution: 200 Foolproof Recipes That Go Beyond Spaghetti And Meatballs

Synopsis

Revolutionize a dinner staple with fresh new ideas From the team that brought you Slow Cooker Revolution comes this 200-plus recipe collection featuring fresh takes on the classics, easier casseroles, one-pot pasta dinners (in which the pasta cooks right in the sauce), inventive six-ingredient pasta dishes, and new whole-wheat pasta recipes that your whole family will love. Plus, all the old country favorites, too - all tested and perfected by the cooks at America's Test Kitchen. No-Prep Baked Spaghetti is the easiest casserole you'll ever make - simply combine uncooked spaghetti, ground beef, and canned tomatoes in a baking dish and pop it in the oven. For our Super-Easy Spinach Lasagna, we ditched fussy layering and relied on a flavorful no-cook sauce to bring this dish to the weeknight table. Our six-ingredient recipes call on pantry staples to do double duty in dishes such as Mediterranean Penne with Tuna and Nicoise Olives. Whole-wheat pasta is anything but boring in recipes like Penne with Chicken, Caramelized Onions, and Red Peppers. You'll also find lighter options, recipes that have less than 600 calories and 12 grams of fat. Plus, we scaled down recipes to serve just two, and we scaled up a number of dishes for company-worthy fare. Enticing Asian noodle dishes round out the collection. We include essential cooking tips, cookware reviews, and ingredient ratings throughout.

Customer Reviews

Over the years the "Test Kitchen": has produced shows, books and magazines that are dependably usable for quick and easy meals that are excellent. I am still learning from their publications and shows. Recommend this to anyone (and have) including my generous and sharing neighbors.

We have made a few recipes out of here and they are delicious! There are a few that I have no interest in but that is to be expected with any cookbook. I also have the Simple & Delicious cookbook from them which is just as amazing!

If you're a pasta-holic like I am, this cookbook (along with a few other 'America's Test Kitchen' series, is a staple. I use it every week or two. Yummy AND easy recipes.

It's a really good cookbook. Typical ATK book, lots of recipes with explicit directions. The Tortellini Asparagus Pasta Salad is divine. My problem is how it works within Kindle App, would love a direct phone number for help with Kindle Books.TPK

All recipes are very simple and easy to make in a very short time and can be assembled by amateur cooks. The recipes I assembled were very tasty and delicious. I served some recipes to my son's family with a comment that he would not purchase spaghetti sauce from a jar ever again. I purchased a second book and gave it to him for Christmas.

Love publications by America's Test Kitchen!! Such wonderful detail! thank you!!

The recipes are straightforward and use readily available ingredients. These are good family recipes - I took the book on vacation and could find most all ingredients in a beachside supermarket.

I bought this as a gift for a friend. She has made many meals from this book and everyone in her family as well as myself have enjoyed the reward of her work.
