Cash In The Wind: How To Build A Wind Farm Using Skystream And 442SR Wind Turbines For Home Power Energy Net-Metering And Sell Electricity Back To The Grid

Synopsis

The power of wind is enormous. Tap into this incredible power supply, using state of the art wind turbines, to generate electricity for sale to the grid. Wind power, worldwide, has been the fastest growing installed clean energy power supply. Now you can harvest your wind energy for profit. How can you harvest this gold? How can you cash-in the wind? This audiobook describes how to build a wind farm, using Skystream and 442SR Wind turbines, to produce wind energy on your property safely, properly, and profitably. The wind industry has evolved and improved over the last 30 years, and has emerged as a world-class industry, with remarkable growth. Wind turbine hardware has matured offering the industry reliability, safety, and long life in the field. Major utilities, and Independent Power Producers, have tapped into large wind farms with megawatt output. This audiobook is written to assist in small wind farms, suitable for your home, farm, ranch, business, and commercial power needs from 500 to 20,000 kWh per month.

Book Information

Audible Audio Edition

Listening Length: 1 hour and 18 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Solardyne, LLC

Audible.com Release Date: October 15, 2014

Language: English

ASIN: B00PV3TJS0

Best Sellers Rank: #27 in Books > Engineering & Transportation > Engineering > Energy

Production & Extraction > Alternative & Renewable > Wind #588 in Books > Audible Audiobooks > Science > Technology & Engineering #4481 in Books > Science & Math > Nature & Ecology > Conservation
