26 Songs In 30 Days: Woody Guthrie's Columbia River Songs And The Planned Promised Land In The Pacific Northwest

Synopsis

In 1941, Woody Guthrie wrote 26 songs in 30 days--including classics like "Roll On Columbia" and "Pastures of Plenty"--when he was hired by the Bonneville Power Administration to promote the benefits of cheap hydroelectric power, irrigation, and the Grand Coulee Dam. Timed to celebrate the 75th anniversary of his employment by the federal government, KEXP DJ Greg Vandy takes readers inside the unusual partnership between one of America's great folk artists and the federal government, and shows how the first American folk revival of the 1930's was a response to hard times. The new book *26 Songs In 30 Days* plunges deeply into the historical context of the time and the progressive politics that embraced Social Democracy during an era in which the United States severely suffered from The Great Depression. And though this is a musical history of a vibrant American musical icon and a specific part of the country, it couldn't be a better reminder of how relevant such topics are in today's political discourse.

â œl canâ ™t get enough of Woody Guthrie, and Greg Vandy reveals him afresh in the context of a project that piques the best in Woody, and maybe the best in America. Your Land: Woody Guthrie and the Journey of an American Folk Song "Greg Vandy, known for his engaging KEXP roots-music show, *œThe Roadhouse,* lovingly unravels that tale in this cleanly written, handsomely designed and liberally illustrated book about Guthrie's month-plus tenure based in Portland in 1941. In the bargain, Vandy contextualizes Guthrie's story with a ton of other fascinating facts about Northwest history." *"The Seattle Times"* "Greg Vandy's *26 Songs in 30 Days* examines the period in 1941 when Woody Guthrie spent a month writing a song a day about hydroelectric power, irrigation, and the Grand Coulee Dam for the Bonneville Power Administration, and is a fascinating glimpse of the musician's life as well as the social politics of the time." *"Largehearted Boy"* "Knowing the story behind these songs enriches them, but the real value and enjoyment of *26 Songs* is the surprisingly relevant connections between past and present political issues it offers you to make through the lens of Guthrie's music." *"The Stranger"* *œThis fascinating tome details a period in Guthrie's life when he was hired by the Bonneville Power Administration to promote the benefits of cheap hydroelectric power, irrigation, and the Grand Coulee Dam.* *"KEXP"* *œOne of KEXP's most noted DJs explores the relationship between Guthrie and the Bonneville Power Administration that yielded timeless folk songs.* *"Shelf Talk, The Seattle Public Library"* *œGreg Vandy's "26 Songs in 30 Days" is a fascinating book that explores the folk musician Woody Guthrie's month-long employment by the Bonneville Power Administration in 1941 when Guthrie was assigned to write one song per day while being driven all along the Columbia River.* *"The Grand Coulee Star"* *œ26 Songs in 30 Days... [is] the revelatory history of Guthrie's work as a commissioned songwriter for the Pacific NW..."* *"Northwest Music Scene"* *œ26 Songs In 30 Days* plunges deeply into the historical context of the time and the progressive politics that embraced Social Democracy during an era in which the United States had been severely suffering from The Great Depression. And though this is a musical history of a vibrant American musical icon and a specific part of the country, it couldn't be a better reminder of how timeless and expansive such topics are in today's political discourse." *"The Columbia Riverkeeper"* *26 Songs in 30 Days* is powerful. Vandy and Person do expansive justice to their narrow subject, swerving outside their coffee table book lane and crucially, big-upping Guthrie while filleting the notion of his unassailable musical-ethical integrity. This is a book that raises philosophical, artistic and ethical questions." *"Seattle Review of Books"* *œ75 years ago, America's greatest folk singer spent a month in the Northwest where he wrote some of his most famous songs. Greg Vandy is host of The Roadhouse, a weekly radio show on KEXP Seattle and the publisher of American Standard Time, a blog dedicated to American music and vintage lifestyle. He also curates for the Pickathon music festival in Portland, Oregon, produces short films, and collects records. The combined effects has established Vandy as a tastemaker in the world of new indie roots and American music in general. This is his first book.

Great book that clears up a confused and poorly documented part of Guthrie's life and how many lost acetates of these songs were discovered in the mid eighties. A must have for fans of Guthrie's music.

Woody Guthrie is an American treasure and his sojourn in the Pacific Northwest is legendary. Anyone old enough to appreciate Woody Guthrie's songs will enjoy this book.

Great book, even for non-Guthrie fans. The background on Roosevelt's vision on how government can help and enrich lives, and the knowledge of how that vision was mostly dismantled over the next 70 years, was an unexpected bonus not always found in Guthrie books. Highly recommended.

We love Woody Guthrie and his story. So we were very attracted to this album when we heard about it. It's not for everybody. But if you appreciate folk really authentic old music with no frills, you will likely enjoy it as much as we do. It is a compilation of his actual voice recordings so some of the songs are a bit scratchy and sometimes not so clear. Really listen and you really get a flavor of the times that it reflects.

See above. Good book but could have covered the effects of Guthrie's communist leanings on the Columbia River Project. Great read.

Great photos and read. Particularly interesting book to me because I have family roots in the area.

Great book, Interesting and well written, Good photos to go along with the text, A very attractive coffee table book.
