This is one of the most beautiful coloring books in my collection. Tabby's drawings are always inspiring as they offer so many options, everything from large round spaces that give room for gradients or jewel-toned three-dimensional effects to complex tiny areas that invite meticulous tile effects. As always, the drawings are expertly inked on a single side of good quality paper. And the cover of this book, as are those of her others, is colored by the artist to show her own personal vision of a way to color the drawings within. Celestial Circles contains drawings from simple to very complex. A few even have the suggestion of gray scale to suggest where there should be shading. Some designs are repeated on black backgrounds that really make the colors pop. The

accompanying page colored by me was done with colored pencils and gel pens and with a background added digitally. I have purchased every one of Tabby's coloring books in PDF version and several also as hard copies. This, so far, is my favorite of her collection. This book is unusually beautiful, not to mention of very good quality, and would make a lovely gift for anyone who enjoys coloring books.

Fun designs. I love coloring mandalas and this book is fabulous with its imagery of the sun, moon, and stars. The images in the book range from simple to more complex and include pages with both white and black backgrounds. I have several of Tabitha's coloring books and enjoy them very much. I typically purchase the PDF versions so I can print them on my own paper. This will be a great book to color in on the day of the solar eclipse (8/21/17) since I don't live in the viewing range.

Tabitha has another hit! I'm in LOVE again with one of her recent releases!!!! This book has so many unique pages to sit back, relax & color away! I'm especially fond that she duplicates some of the pages with black backgrounds!! It's like 2 books in one as the pages are colored totally different!!! If you haven't bought one of her books before, start with this one! You won't be sorry!!!!

This is a very beautiful book. Tabitha is a very talented artist. She has taken mandalas to another level. Paper is good quality I have no complaints about it. This book is one of my favorites in my collection and I have a huge collection. I recommend this book for ppl of all ages. You won't regret buying this book.

I absolutely love this book. It is full of talent and artistic creativity. I have included a picture I colored from her book. This is a book that is sure to delight anyone as it is full of fun pictures to color. I love the way the cover is designed to the pages of each of Tabitha's coloring book.

Once again, Tabitha provides absolutely gorgeous pieces of art for us to color. There are varying degrees of intricacy to the pages, which means that there is something for everyone to color. This is definitely a favorite!

Beautifully drawn illustrations. Very well done and well worth the price with many pages to color. I

like the black pages very much.

Awesome book!
