For over 200 years, the Royal Horticultural Society, Britain's premier gardening charity, has been promoting horticultural excellence by providing inspiration through its shows, gardens and expertise. Funded mainly from membership subscriptions, the RHS provides advice and information to its members, whatever their level of skill. This book (along with Growing Vegetables and Herbs) marks the launch of a series of highly practical and invaluable gardening guides, packed with step-by-step instructions from RHS experts.

nice handy book..simple yet practical.

Well written and organized. Information helpful. Good drawings and pictures. I purchased this book because it was one of a series by Geoff Hodge and I was not let down. I will keep it with several others as a reference.
