## Customer Reviews

This book really stinks.

I found this book very disappointing. It is very short. In fact I read it in less than 10 minutes. There is a 2 page intro where the author gives his thoughts on diabetes. Then there are 3 short paragraphs describing the two types of diabetes and another short page with a list of symptoms. The next heading is prevention with three sentences, and a few pages about the best food for diabetes (which lists 15 items including spices). Then finally you get to the juice recipes and there are a total of 9 recipes (each recipe only lists between 2-4 vegetables and/or fruit). And finally one success story in three short paragraphs. Also there are a few paragraphs on (1) juicing tips, (2) about the author, and (3) at the beginning of the book a list of other juice books you can buy. That's it! This was only \$2.99 (thank goodness) but you can go to the American Diabetes website and find much more detailed info about food for diabetes and Joe Cross' reboot website which tells you everything you need to know about juicing, and both are free. Like I said very disappointed. I feel like I purchased the cliff notes of a book.

Excellent book. I just wish it would have more recipies. The recipients are very limited. There is not much to choose from

I was especially interested in reading about anything regarding juicing and diabetes since my husband has developed type 2 diabetes. This succinct, well researched and highly informative book has given me much to think about and lots to try for his condition. I am an avid juicer, and now thanks to this author my husband is finally on board! Thank you so much for all the information, and great recipes that incorporate veggies and fruits to fend off the debilitating affects of diabetes!
