## Customer Reviews

Delighted with this rice recipe book. I've always loved cooking with rice having had an award winning rice recipe handed down through the family and using brown rice as a healthy meal base staple. I discovered many new ideas that I will use in this book. I especially loved that the meals are not only delicious food combinations they are nutritious, affordable, and easy to prepare. A well deserved 5 star for this one.

I love rice but had never really considered it as the main event in a meal. This book has really changed my mind with its great range of mouthwatering recipes and the author's zany sense of humour!

The breakfast burritos were amazing. I really loved this book. The recipes are easy and delicious!

I'm a big fan of my slow cooker and rice cooker. They're unexpectedly versatile in the kitchen, easy to use, and so convenient when you want to make a meal without a lot of time and effort. For the busy cook, this author's books are a life saver. This particular cookbook is full of great recipes that use a lot of my favorite flavors. Although I'm not a vegan, these recipes will come in handy when I'm looking for a little more easy variety after a busy day. These recipes are also easily customized and varied, which is always a plus. I'll never be stuck for dinner ideas now. Highly recommended!

The curry rice and mushroom pilaf are my favorites. I use chicken broth always instead of water ( if u are vegan u could use vegetable broth) and it comes out great every time.

This is a really great vegan rice cooker book that carnivores will enjoy. Has 50 recipes that covers a wide range of meals from breakfast to dessert.

just ok, I got this as a gift along with a rice cooker.

My daughter loves this book, she has made several of the recipes.
