# Detective Jack Stratton Mystery Thriller Series: JACK AND THE GIANT KILLER

## Synopsis

This top-rated mystery-thriller series is on sale for a limited time to introduce you to the wildly popular Detective Jack Stratton Series from Wall Street Journal bestselling author Christopher Greyson. We hope you enjoy!

Jack looked up at the giant, dead body brazenly hung on the quaint Welcome to Darrington sign. He turned to the town's mayor. "Mayor Lewis, when you said people had nothing to fear, it pricked the killer's vanity. He's using this latest victim to send you a message: Be afraid. Be very afraid of him. If you want to catch this serial killer, you need to feed his ego. Tell the people he's right. They should be scared no one's safe while he controls the town."

Rogue hero Jack Stratton is back in another action-packed, thrilling adventure. While recovering from a gunshot wound and the loss of his job on the police force, Jack's romance with feisty Alice (aka Replacement) continues to develop. When Alice gets a seemingly harmless private investigation job to locate the owner of a lost dog, Jack grudgingly assists. Little do they know it will place them both in the crosshairs of a merciless serial killer.

Jack and the Giant Killer is part of the Detective Jack Stratton Mystery-Thriller Series which has more than 3,000 five-star reviews and 900,000 readers and counting. If you love a page-turning thriller with mystery, humor, and a dash of romance, pick up Jack and the Giant Killer today.

#1 Top Rated "Serial Killers"

## Customer Reviews

Jack Stratton and Replacement have now starred in five books. All have been very good. They are rare characters who are fun, yet have very serious issues in their lives, past and present. I have enjoyed the first four, which were light, airy and thoroughly relaxing enjoyable romps. This one, however, eclipses the others in content and form. It puts Mr. Greyson in the upper echelon of mystery/thriller writers writing today. He has given even more depth and sophistication to the characters without sacrificing any plot. It is as if his writing has matured with his character's, especially Replacement's (aka Alice). This book starts when Alice is hired to find the owner of a lost dog. The dog is a huge beast and we quickly learn that Jack is not a dog person and the dog is not a Jack person. This worn story line is not overdone, however. The search for the owner, turns into a search for a serial killer and Jack and Replacement are on it. In the previous books, Sheriff Collins has not had much use for Jack. The sheriff is out of town for this one, so that bit, which had become a bit tedious is left out. I do not mean to continually compare this book to the first ones. Like any set of books with the same main characters, this one is better if you've read the prior ones. However, it would stand alone just fine. Problem is...then you're going to have to go back and read the first ones.

As I've previously said, I don't go into the plot in my reviews. Other reviewers do that and so does the description of the book. I stumbled on this series when the first book in the series, AND THEN SHE WAS GONE was on an Amazon Promotion and I was placing a book order. It looked interesting so I added it for something different from an as yet unknown author to me. I enjoyed it so much, when I finished reading it, even though I still had a box of books to read, I ordered the other 5 books in the series: GIRL JACKED, JACK KNIFED, JACKS ARE WILD, JACK AND THE GIANT KILLER and DATA JACK. During the past week or so I've re-read AND THEN SHE WAS GONE, following through reading each book in order. (It's not necessary to read in order. Each book is a standalone story.) I've just finished # 6, DATA JACK. It should be said I have a lot of downtime, which means a lot of time to read. I've found this series to be good enough to add to my list of "favorites" mystery authors I follow and usually pre-order all their next books, not yet published. He's joining the likes of James Patterson, Michael Connelly, Patricia Cornwell, Jeffery Deaver, Janet Evanovich, Iris Johansen, Ian Rankin and Nora Roberts writing as JD Robb to name a few. If you enjoy reading their mystery books, you'll probably enjoy Christopher Greyson as well. It should also be said that the editing is good. I think altogether in the six books I've only found 3-4 errors and they weren't so egregious as to detract you from your reading. The characters are well developed and real. I think that's one of the things I really like about Greyson. These characters are like "real" people. I can visualize them and their interactions with one another as if they were people I know. All the dialog isn't in full sentences but then I don't talk that way either, do you? The stories are diverse and I've found them to be page-turners. The last time I checked, his newest addition to the series was only available for pre-order for Kindle. I prefer literally, "curling up with a good book". Today, I see JACK OF HEARTS is being released tomorrow (8.14.17) for all editions so I've ordered it. I highly recommend this entire series to all who enjoy a good, well written mystery.

I love this series, Read this one first and got the rest now I'm waiting for the next one. I think I read it's being edited and will be out this summer. This series has everything. It's fast paced, the characters are believable and are not one dimensional. You found out their backgrounds and what makes them tick. Jack has a fine sense of right and wrong and Replacement is sweet and smart. You have to read this to find out how she got her name. Read them in order or not they stand alone. I hate series that leave the end dangling and you have to buy the next one. Not this smart author they all have a beginning and end. Read them please you'll love them.

I am reading it now and have read there other three and loved them too. This time a new character is added, a dog and it is just hilarious!! Each book you lean more about Jack and Replacement and they become like friends. All four of these books are great but I suggested reading them in order. I understand he is working on another one and better keep the dog in the story, you can tell I am really a dog lover. I pre-ordered this one and will pre-order the next one.

Just finished reading this book in 3 days. I have read the previous four with great enjoyment. The first four were fun to read and were not too involved but very good nevertheless. However, this book was different. It took a little bit longer to get going but we were given more insights into Replacement's past, which I foresee a thrilling book ahead with that information. Jack is getting more respect in this book, as he should! I like that the characters are being developed more and are becoming more real to me. The story line itself was filled with suspense and twists. I loved the ending! I hope there is a continuation of it in the next book. Mr. Greyson is letting his talent flow! I will be buying more books in the future. 5 stars!

I took a chance on these books and I find them light and fun reading. Pretty good storyline and written in the older-fashion staccato voice of crime thrillers past. I did find some technical flaws but easily over-looked. The characters are very likable and the books are a quick read. I enjoy these types of books as fillers to other reading. I think I've read three now and I do recommend them for what they are. A pretty good read all-the-way around.
