Fatigue And Tribological Properties Of Plastics And Elastomers, Third Edition (Plastics Design Library)

Synopsis

Part of a series of data-rich handbooks within the Plastics Design Library, *Fatigue and Tribological Properties of Plastics and Elastomers* provides a comprehensive collection of graphical multipoint data and tabular data covering the fatigue and tribological performance of plastics. The handbook is structured by grouping together plastics of similar polymer types into ten chapters. Each of these chapters is split into two sections: Fatigue Properties and Tribological Properties, and together they provide a compendium of several hundred graphs and charts, supplying the core data needed by engineers and scientists on a day-to-day basis. The data for this third edition has been updated to cover upwards of five years since the previous edition was published, and also includes an entirely new chapter covering sustainable and biodegradable polymers. The book also includes an extensive introductory section covering fatigue, what it is and how it is measured; the fundamentals of tribology; polymer chemistry and plastics composition. These chapters also provide readers with a full understanding of the data section, and how to put it to use as a hard-working information tool.

Book Information

Series: Plastics Design Library

Hardcover: 370 pages

Publisher: William Andrew; 3 edition (April 6, 2016)

Language: English

ISBN-10: 0323442013

ISBN-13: 978-0323442015

Product Dimensions: 8.5 x 0.9 x 11 inches

Shipping Weight: 2.9 pounds (View shipping rates and policies)

Best Sellers Rank: #4,581,846 in Books (See Top 100 in Books) #68 in [Books > Engineering & Transportation > Engineering > Mechanical > Tribology](#) #173 in [Books > Engineering & Transportation > Engineering > Materials & Material Science > Fracture Mechanics](#) #1439 in [Books > Engineering & Transportation > Engineering > Materials & Material Science > Polymers & Textiles](#)

Customer Reviews

Larry McKeen has a Ph.D. in Chemistry from the University of Wisconsin and worked for DuPont Fluoroproducts from 1978-2014. As a Senior Research Associate Chemist he was responsible for new product development including application technology and product optimization for particular

end-uses, and product testing. He retired from DuPont at the end of 2014 and is currently a consultant.
