This is by far one of the best snack and appetizer books I have come across! There are many recipes in this book. Not only are the recipes very easy to follow and well organized, but each recipe has a picture of what the food is supposed to look like when it is finished. I really like how the author included the nutritional facts for each recipe, as well! My family came over for dinner last night and I mad the "BLT Bites" from the book and they were a hit. Everyone loved them. I can't wait to try

more recipes from this book!

Absolutely delicious book with a lot of scrumptious and healthy recipes included. A wide variety of choices for every meal of the day, that will suit different tastes and lifestyles. In addition, the images gives ideas how to serve the dishes. I tried the Chinese Pot Stickers recipe. It was very easy to follow the steps, and the outcome was incredible. All the family liked the dish. Also, the images and nutrition facts are very informative. Excellent book for connoisseurs of cooking.

Let me preface this by saying I am not a cook. My fiancée is a great one, however, and we decided to try three of these recipes this weekend. We were disappointed in the crab puffs. They got such great praise from others, that I'm thinking we did something wrong. They came out flat and cookie-like and didn't have much flavor. Now that that's out of the way, the bacon tomato dip was AMAZING! I had to stop myself from eating the entire bowl. Really good flavor. The sour cream banana bread was also wonderful. I've been eating it for three days now and haven't tired of it yet. Can't wait to try more recipes from this book!

I downloaded this books and didn't give it much thought until the other night when I needed to make some appetizers for a small get together with some friends. I used two different recipes and they was both major hit with almost everyone. I suggest downloading this for your next get together. ~Enjoy!Disclaimer: I didn't not receive any type incentive or discount for reviewing this product. This is simply my viewpoint and opinion concerning this product.

If you really love to serve variety of vegetable and non-vegetable snacks, this book is the right choice to experiment with. This book contains many delicious spicy snack recipes. Ingredients are easily available and each items can be cooked within few minutes. As Pamela said, it will surely brings together families and friends. This book is really useful for mothers who wants to try delicious snacks for their children.

This book is full of tasty recipes for snacks, appetizers and dips which can be combined. The food from this book is delicious and most of it can be served as "finger food" for the parties. I especially liked Mini tacos, Focaccia bread, Baked buffalo wings and many more.

Wow! I am a cook book collector and enjoy preparing and serving delicious appetizers that look as

good as they taste. These recipes will have your guests swooning! Ms. James books translate to excellent food while offering tested recipes. Her books offer clear directions, photos, well organized, edited, and spell-checked.

The recipes come with pictures and nutrition facts and that is something I like. I don't eat meat or bacon, so I won't be able to try all the recipes, but there were some veggie and seafood recipes here that I certainly want to try. I make bruschetta myself, but I like Pamela's version. So I will give that a try also.
