Magical Herbalism: The Secret Craft Of The Wise (Llewellyn's Practical Magick Series)

Synopsis

Natural magic utilizes the world around us for magical purposes. Herbs are one of the most important tools for natural magic, and the best introduction to this system is found in Scott Cunningham's *Magical Herbalism*. This book presents a complete system of magic using herbs. You will learn the theory of magic and the tools you'll need. Then you'll get countless techniques for using herbs for magic. Need a protection method? "Pick several protective herbs and bind the stems together with red thread, then hang them up. This practice dates back to Babylonian times." You'll find a list of over 115 herbs that details their magical powers, so you can easily find which ones are protective in nature. How about a divination using herbs? "Get a small quantity of dried patchouly, mugwort, or wormwood. Crumble the herb between your hands until it is finely diminished. Next, pour it into a small square pan (glass or ceramic). Light yellow candles and place the pan on your working area. Close your eyes, extend the index finger of your weak hand, and gently touch the center of the pan with its tip. Move it at random in the pan, shifting from one direction to another ... Now, remove your finger, open your eyes, and interpret the symbols you have just written in the herb." All of the techniques, rituals, spells, talismans, healing methods, and charms are this easy. And most importantly, they work! You'll also find how to make and use incenses, scented oils, perfumes, fluid condensers, and so much more. Here is your chance to work with a beautiful and simple system. Give it a try! You won't be disappointed.

Over 120,000 people have been introduced to the magic found in herbs thanks to Scott Cunningham's book, *Magical Herbalism*. If you are wondering why this book has become so very popular, I think I have the answers. First, it's a complete system of magic that is as easy as it is powerful. It begins with theory and what you need to do to prepare for works of magic. Then it tells you how to harvest, dry, and store the magical herbs. This is followed by information on how to use the herbs you have obtained for such things as getting love, doing divinations, casting protection spells, and healing yourself and others. You'll also learn how to make magical fluid condensers, incenses, perfumes, scented oils, and amulets. The book continues with a listing of over 115 major magical herbs with all of their qualities listed. And there is much, much more, too. The phrase "complete system" really doesn't express how full of information this book really is. Another reason I think this book has become a classic has to do with Scott's style of writing. It is very gentle and kind. He never talks at you or down to you. Rather, he seems to be talking with you. This makes the book a pleasure and a treasure to read and enjoy. This combination of style and depth of content makes *Magical Herbalism* one of the finest and most important resources you can have. If you are looking to expand your knowledge of herbs, this book is for you. If you are looking to expand your knowledge of folklore, you need this book. And if you are looking to work with the gracious gifts of Mother Nature that can be used to improve your life and the lives of those around you, this book is a must.

Scott Cunningham practiced magic actively for over twenty years. He was the author of more than fifty books covering both fiction and non-fiction subject matter; sixteen of his titles are published by Llewellyn Publications. Scott's books reflect a broad range of interests within the New Age sphere, where he was very highly regarded. He passed from this life on March 28, 1993, after a long illness.

The information in this book can not be matched. I know everyone is into the internet these days, but why do that when the information is all contained in one book? Save yourself hours of websurfing. Get this book.

I love everything about this book. I have read many MANY books about magical herbalism and have yet to find one that was organized in a fashion to which one can actually follow along and know what they are doing. I am so eternally grateful to have found this book. Thank you

As usual, Scott Cunningham is a wonder of clarity and deep knowledge. I frequently wonder how much more he could have done had he lived longer. I say a prayer for him every time I pick up one of his books.

A must-have for any wiccan or anyone who is interested in herbal home remedies.

Great book with much to learn from. Check out the video he put out as well. You can find it on youtube. :-)
