Satan Is Alive And Well On Planet Earth

Synopsis

No one thinks much about the Devil anymore. In fact, words like witchcraft and black magic have a strangely medieval ring to our ears. Many people even think of Satan as somehow comic -- and therefore harmless. Yet amidst the tragedy and corruption of our own century, it is ironic that many people doubt whether an active, evil force really exists. But Satan is not dead, says author Hal Lindsey; he has simply adopted a more modern style. Spiritualism, astrology, "new age" religion -- all of these and more are signs of the creeping influence of the Father of Lies in our time. In this book, Hal Lindsey, well-known speaker and author of the best-selling *Late Great Planet Earth*, outlines a battle plan for overcoming this very real and insidious enemy. The times may change, but the conflict is as old as the Garden of Eden. Whatever happened to old What's-his-name?

Hal Lindsay is the author of numerous fiction and non-fiction books, including Blood Moon and Apocalypse Code.

Extremely interesting book.

third copy!!!

The best and most interesting of all the books I read.

wow

This book is quite unique and needs to be in Kindle format.

The purchase arrived timely and I am very happy with this item.

A book to keep in my library and review over time.

Hal is always concise and clear. I recommend it.
