# Stealth Invasion: Muslim Conquest Through Immigration And Resettlement Jihad

## Synopsis

Americans are shocked by ongoing news reports chronicling growing chaos in Europe, where massive Muslim migration is wreaking havoc on the continent including horrendous acts of mass terrorism, an epidemic of rape and sexual assault against European women, and large, jihadist-rich enclaves where even police are hesitant to enter. Yet, few realize that America is heading down the same suicidal path. As veteran investigative journalist Leo Hohmann documents in *Stealth Invasion: Muslim Conquest through Immigration and Resettlement Jihad* an international network of mostly Muslim Brotherhood-linked activists has been building its ranks within the United States for more than three decades, aided by a U.S. immigration system seemingly obsessed with welcoming as many unassimilable migrants with anti-Western values as possible. As a result, largely secret plans for major population changes in hundreds of U.S. cities and towns are already being implemented. As *Stealth Invasion* reveals, the Muslim Brotherhood has a well-defined strategy for conquering America, not necessarily with violent jihadist attacks although we should expect those to increase but through more subtle means collectively called "civilization jihad." According to the Brotherhood's own documents seized by the FBI, "civilization jihad" involves infiltrating and conquering Western democracies from within. Very simply, civilization jihad calls for changing a nation by changing its people and its values gradually, over time. Meanwhile, the world is undergoing a historic shift of populations out of the Middle East and Africa, and into Europe, Canada and the United States. *Stealth Invasion* connects the dots between the problems of growing violence and unrest that have plagued Europe and what is now unfolding across America and blows the lid off a corrupt, fraudulent program that has been secretly dumping Third World refugees, many of them radical, on American cities for three decades. Readers will meet the people and groups behind this shadowy resettlement network, which starts at the United Nations and includes the White House, the U.S. State Department, some surprising church groups, and corporate honchos involved in everything from investment banking and meatpacking, to Florida vacations and yogurt manufacturing. In *Stealth Invasion*, Leo Hohmann reveals how Congress has turned a blind eye to the program since President Jimmy Carter signed into law the Refugee Act of 1980, allowing the United Nations not American officials to select the refugees sent to our cities. As a result, those selected are increasingly coming from hotbeds of Sunni radicalism like Syria, Iraq, and Somalia while a growing population of persecuted Christians are left behind. The government uses a network of private agencies, most with churchy names tied to Lutherans, Catholics, Episcopalians, Jews and even evangelicals, to do the resettlement work, but the public is shut out of the process from beginning to end. No public hearings, no public notices in the local newspaper asking for their

input. Americans have been kept largely in the dark about the radical plans to permanently transform their nation. Until now. In *Stealth Invasion*, Leo Hohmann shows that the breakdown is no coincidence and it hasn't manifested overnight. It's been brewing since the 1980s, but is now reaching the point where it is about to metastasize and overtake us all unless it is stopped now.

Leo Hohmann's brilliantly researched book is well worth your time to read, study, and pass on to like-minded Americans. It isn't an accident that our communities are experiencing increased crime, acts of terrorism, and a drag on economic growth. It is by design. Hohmann unfolds the entire story for us, layer by tragic layer. I've seen the truth of the negative consequences of third-world resettlement in my home state, and I witnessed the shocking inattention to these consequences by many in positions of power in Washington. Read Hohmann's book to learn how you can play an effective role in protecting your backyard. --Former U.S. Representative Michele Bachmann  
The poison fruit of the Left's treasonous migrant policy has not yet fully become obvious, but it soon will. They are importing huge numbers of people who do not share American values and have no interest in adopting them. When we see an epidemic of jihad terror attacks, FGM, honor killing, and demands for Sharia accommodation in this country, you will know why if you read Leo Hohmann's essential book., *Stealth Invasion* tells the truth that the mainstream media is determined to cover up: that the Muslim migrants are not "refugees," but hostile invaders. --Pamela Geller, President, American Freedom Defense Initiative, author, *Stop the Islamization of America*  
The refugee influx is

not a humanitarian crisis as it has been portrayed, but an opportunity for the Left to engage in social engineering on a massive scale, while flooding Western Europe and the U.S. with jihadis who easily infiltrate among peaceful refugees, just as the Islamic State has long threatened it would do. We are being lied to by the political and media elites about what is really going on, but here is the truth: in this shocking and sobering book, the peerless investigative journalist Leo Hohmann lays out the facts with devastating clarity, documenting a betrayal so immense as to be unbelievable, were the information in this book not so ineluctably compelling. Stealth Invasion ought to be required reading for any politician who still cares about defending America and Judeo-Christian civilization; because of what is laid out in this book, it is rapidly becoming too late. --Robert Spencer, author of the New York Times Bestsellers *The Politically Incorrect Guide to Islam (and the Crusades)* and *The Truth About Muhammad*

Leo Hohmann is a veteran journalist and news editor for online news giant WND, with a particular focus on immigration and Islam. Prior to joining WND, he worked more than two decades as a newspaper reporter and editor in suburban Atlanta and in Charlotte and Raleigh, North Carolina.

The contents of this book will keep you up at night. Clear evidence that Muslims, especially Sunni Muslims have to be watched very closely. They clearly have a hidden agenda. The problem in America is that the majority of Americans know little or nothing about Muslims or more importantly their bible, the Qur'an, which says that all infidels must be exterminated. That means anyone that is not Muslim or is not a follower of the Islamic Faith. Muslims believe in world domination and there are already over 1.6 billion of them on this planet.

Hohmann has tied together so many loose ends in the violent events of the last few years. The Big Picture is one every American should consider. Liberals and conservatives alike are being used to divide and break down the fabric of Western culture. As goes Europe, so go we if we don't recognize what's happening.

Once you become aware of the very real threat that Islam and the Muslim migration poses to Western Civilization, you will want to share that knowledge with others, i.e. (family members, politicians, friends, co-workers, pastors, etc.). I have read or viewed twenty or more resource on the general subject matter. In terms of importance and cutting to the chase of the matter, I would recommend this book, the book by Philip Haney, i.e. "See Something Say Nothing, the DVD Jihad

in America: The Grand Deception, and the book by Brigitte Gabriel entitled: They Must Be Stopped. All of the above mentioned resources are available through .com. The author of this book is an investigative journalist who tells you what you will not hear anywhere else other than sources within the alternative media. I read the book within the first couple of weeks of obtaining it and plan to reread it again, taking notes this time around. Several incidents which are cited verify that the European Model of Islamization is being used in America today. What this means is that when Muslim immigrants commit crimes, i.e. (rape, child molestation, murder, hate crime, etc.), they are handled differently than everyone else doing the same thing. They have an entitled status and they know it. Due to the criminalization of free speech in the criticism of Islam and the Prophet Muhammed, they have achieved impunity from the national law in the host countries in which they live. Law enforcement, the media, the courts, politicians all conspire together to protect the Muslim who is guilty of the crime and they double down on the victim, i.e. (lawlessness). To get a real feel for this, look at some YouTube.com videos on what is going on in Europe. Who is footing the bill for all of this immigrant migration, you might ask? The tax payer! The demographic social engineering that is taking place all across the country is by design. "Globalist leftwing elites are using the Islamic migration, (also known as Hijra), as a battering ram to destroy Democracy and Christianity. The U.N., the U.S. State Department, the U.S. Department of Justice, the president, George Soros, subcontractors working for the government, City Mayors and City Councils are the primary ones behind the massive migration and resettlement program. As the book points out, contractors are used by the government to get around open records and requests for information through the Freedom of Information Act. This is clear deception to the American people. Middle Eastern immigrants are literally dumped on unsuspecting local communities under the cover of darkness. Local elected officials and the citizens of these communities have no voice in this matter. Once an immigration and resettlement office locates near a community and there are industries nearby that will hire cheap migrant laborers, things are set in place for the community to receive thousands of Middle Eastern Muslim migrants. Right before it starts, a representative from the U.S. State Department, a representative from the local Immigration and Resettlement Agency and a local politician have a private meeting that is closed to the public. No one seems to care about the impact that thousands of migrants will have on the local communities in which they are forcefully placed without any prior public knowledge or input. As time goes, the community changes. The people living there start changing their habits because of Muslim criminal activity. Mosques start mushrooming around the community. The media, law, politicians, and the courts are clearly favoring the Muslim community in all clashes that occur between cultures. The large Muslim populations that

are dumped in an unsuspecting community, i.e (anywhere USA), eventually develop their own enclaves/ghettos to live in. They then petition for the right to practice their form of government, i.e. Sharia Law. Parallel societies start to develop as their numbers continue to grow. Sharia Courts, i.e. (like they have in the U.K.) can impose Sharia Law upon the non-Muslim population in the host country. Sharia Law is an unfair, biased, and unjust system of law and government. Sadly, the Islamization of America and Western Civilization is taking place. If you want to see where America will be on this issue in the next ten to fifteen years, just look at what is going on in Europe. Go to the YouTube.com website and type in: Rape and Europe, Rape and Sweden, Rape and Germany, Islam and the UK, or watch any of the Pat Condell videos. When you hear about a big employer coming to your area and the promise of new job opportunities to the local community you may be disappointed to find that those jobs will be going to the Muslim Immigrants that just started moving into the neighborhood by the hundreds and thousands. My guess is that American Patriots will be the ones who ultimately resolve the matter, and that will probably be with a gun in their hands. Thank God for the Second Amendment!

Wake up America! People high in government, wealthy individuals (Soros), and the UN are behind the globalization and destruction of America as we know it! And they are using lax immigration laws, church groups, and political correctness to do it. Immigration and resettlement of these non-Christian people in towns and cities across the U.S. is one of their methods "destruction from within" and tax payers are footing the bill! And I have only read 1/4 of the book! What more will I learn? Scary! A MUST READ FOR ANYONE WHO LOVES THE USA!

This author does investigative reporting that the "other" media refuses to do. We know what he says is true because it happens in our backyards and we see it everyday. We know there is a massive cover up of anything negative pertaining to refugees or immigrants and our freedoms and protections are fastly dwindling. Every page was informative and relevant to today's world.

This is a book that needed to be written. And sadly, it's a book that needs to be read. I say "sadly" because it's not a pleasant subject. Mr. Hohmann has done his homework, and yours too. Take a good look at Europe and you'll see the future. We're not far behind. You may be shocked to find out who the real villains are.

Leo Hohmann gives an incredible insight to the current worldwide agenda of immigration,

open-borders, and globalism.
