Customer Reviews

What I find most remarkable about this book is that author explanations and guidelines have a depth

to them that can only be gained through experience. After the first few lessons, I got the impression that I would not be wasting my time if I practiced these techniques - an intuitive hunch :) I was able to then focus on actually doing the practices and was able to achieve success by using them. Presents several different techniques for astral projection and waking up in dreams. Of these, some of my favorites includes certain mantra practices and a practice that involves concentrating on your heart. Author gives the information in a clear, straightforward way, and he also gives insight into common obstacles and how to persevere. There is a definite, logical flow and sequence to the topics and exercises. I would recommend using it as the author suggests, taking the course a week at a time.

Great read! Short, simple and to the point. I have been trying to learn more about Astral travel for quite some time now, ever since I had an unplanned out of body experience while I took a nap one afternoon after staying up very late the day before. I love that this book is not tiresome and outlines the different techniques that can help me have an out of body experience on a very simple way. Thank you!

I enjoy reading it. Easy read and easy to understand. This book is a excellent guide to discovering the world of astral projection. You will also learn about different methods in doing astral projection and how to make it safe. I recomend it to anyone just beginning their journey.

At first I thought this astral projection is not true but upon reading this book it has a lot of good point and basis that proves this astral projection, this book will teach you how to experience your first ever astral projection travel. Paul did a remarkable job on creating a very informative book like this and I commend him for that. It is really worth spending my time reading this book!

This book is a nice introduction to anybody looking for information to start with astral projection. The book explains what will be the benefits for your life and gives you techniques to start with astral projection. There are some examples that are really interesting.

This book is perfect for beginners who want to find how to Astral Project. It has lots of useful information and lots of techniques for astral projections. I suggest you get this book if you're a beginner because after all, that's what it's for. And it's well worth your money.

This book effectively breaks down the how-tos and talks about what to expect when astral projecting. Great guide for a beginner or someone that is interested in trying this out. The read was to the point and concise and the content delivery made it enjoyable.

It is truly fascinating. I learned a lot about astral projection on this book. Of course, everyone who wants to try must know the proper steps and what are the effects of astral projection. I recommend anyone who wants to try it to consult this book.
