Solved! Curing Your Medical Insurance Problems: Advice From MedWise Insurance Advocacy

Synopsis

Consumer protection advocate Ralph Nader praised *Solved! Curing Your Medical Insurance Problems*: "Who hasn't been bewildered and outraged by lengthy, inscrutable medical bills and the tricky ways of the health insurers?Learn what to watch out for in this volume by authors who know the inside ways of sellers who try to take you to the cleaners." Some say, "You get what you pay for." If only this were true! Too often, consumers find themselves paying much more than they expected, getting much less than they bargained for. Medical care is no exception. In their book, the authors show readers how to spot over-charges by providers, under-reimbursements by insurers, and inappropriate denials by insurers and government employees. Furthermore, they presented steps to take to prevent being victimized by "the system." And what is the system? In America, it is a hybrid of private healthcare providers, massive insurance companies, and governments at the state and national levels. Unlike Britain with its single-payer National Health System, this public-private mixed-breed creates the need for patient advocate professionals, who take up the cudgels on behalf of the medically disadvantaged and the financially strapped.

Customer Reviews

This book is amazing! I used the information in this book to help with figuring out if my mom was being ripped off by various doctors. This offers a step by step guide on how to deal with it. I used it to save over \$5400 with just one phone call and reading some of the text to the person on the other end of the line. It only took one phone call. There are tons of strategies, tips and tricks on how to deal with all the bills you get when it comes to healthcare. In today's day and age everyone

needs this book with rising health care costs and you companies sending you more and more bills with many of them completely wrong or able to be reduced with simple strategies. I highly recommend this book. It's VERY good.

This book doesn't just save its readers their hard-earned dollars, it saves something even more precious - their peace of mind. Adria is an outstanding patient advocate, and having this book on your bedstand is almost as good as having her at your side when you deal with the "puzzle palace" that we call the insurance industry. After I read this work, I made sure to meet with her personally. I can guarantee you - she is as authentic in person as she is between these pages. If you are anticipating dealing with a recalcitrant insurer, Solved! is essential to claiming and getting what your insurance will want to deny you. Jerry Ashton co-author "The Patient, The Doctor and The Bill Collector: An Obamacare and Medical Debt Collections Survival Guide." [...]

The question is not "if" you need this guide, it's "when" you need this guide that becomes so obvious as you read through the information of what to look for, how and where to get answers to just about any medical billing issue. Insurance claims and hospital bill can be misleading, inaccurate, esoteric, and confusing. Doing battle with the data alone is an uphill struggle to just seek out simple fairness. This book, to the point, concise and well organized, begins to strip away the layers of complexity to solve medical insurance problems. It's a good resource for knowing where to get information, file complaints, and get answers. There's information about what to look for and avoid prior to engaging medical services as well. Highly recommended for getting to the bottom of a particular medical insurance problem, and a handy resource for understanding what to do before medical services to protect against over charges and unfair practices.

Adria Goldman Gross who is an Advocate and has devoted her life to helping others with medical billing problems has helped me Richard Formont II with Getting \$ 50,000 dollars of dept down to 15 to 20,000 or more. In a few weeks i'll know for sure. if your in need of help with Hospital Bills reach out to Adria Goldman Gross. Adria has been their and Done That and has devoted her life to Helping Others. I highly recomend as I did for you to buy Adrias Book: Solved ! Curing Your Medical Insurance Problems By: Adria Goldman Gross on .com . I Promise you will not be Sorry !!!! or let Down. With Adria's help I can Breath Again. Look on my Facebook page in a few weeks to see how Adria helped me . Buy this Book you won' be sorry.....

I had the good fortune to speak with Ms. Gross on some insurance issues that were plaguing me, and she recommended that I buy her book. Thanks to Ms. Gross' advice over both the phone and in print, I was able to successfully negotiate my unreasonable hospital bill down by a significant percent. There is a lot of good, specific advice here, such as Medicare lookups for billing codes in your hospital bill, and healthcare specific negotiation tactics. And of course, any specific questions can always be addressed to Ms Gross online as well; I found her to be very open and helpful, and more so than other authors I've tried to contact.

I bought this book after consulting with Adria about a complicated medical bill. She is extremely knowledgeable about the whole process and I hoped to learn how to be more effective and successful in dealing with future medical billing mishaps. The book contains so much great information! I feel much better prepared to tackle medical billing and insurance issues.

As a retired physician, formerly overseeing a large gastroenterology group with five medical billers and coders, I know how complex medical billing has become. Our staff had to constantly update with seminars and webinars to keep up with this rapidly changing field. The lay person simply does not have the resources nor the time to understand the medical billing morass. Advocacy firms such as MedWise Insurance are essential in this day and age. I recommend "Solved, Curing Your Medical Insurance Problems" as a useful "guide to the perplexed" handbook that should be used as a springboard for those needing help negotiating the medical billing minefield. Michael Kram MD, author, Zebra: It's not All Black and White in the Physical or Spiritual Worlds.

Anyone who has ever spent hours on the phone battling health insurance providers to get coverage, answers, or even just an actual human being to talk to, knows how maddening and frustrating it can be. Adria's book offers eye-opening tips and encouragement to get what you pay for and deserve when your health insurance isn't working for you. Who knew you could question the bills? Who knew there was such a thing as a health insurance advocate in the world? Now you do, and now you have either some tools to do-it-yourself, or a way to find a true pro who will be on your side, advocating for you.
