Customer Reviews

Loved this book. I wish I had read it years ago to help me understand the rate and depth of changes that we are now experiencing. It is well written and easy to follow.

Compare this book with what has happened in the 40 years since then.

Great book... was in awe how a person can have such a futuristic outlook on so many topics...

Even 5 reads later it is still a great book.

I read it before. Want my own copy.

A classic. Norm Michaud
