## Customer Reviews

Recently I went from steel cookware to cast iron cookware. And I have found this cookbook over helpful. It was super flavorful recipes that are so easy to prepare. Also in this book are instructions on how to season the cookware. I bought new Lodge cookware, they stated pre seasoned... They are kind of pre seasoned but not like my Mother's was. So I did this pre seasoning twice as it worked. The recipes in this book are wonderful. My favorites are: Spaghetti and Meatballs and the Mexicans Tacos. In addition, the chili recipe tastes great and so easy. Highly recommended.

My grandmother cooked with cast iron, and her food was always delicious. However, there is a certain knack required when using cast iron, and before I got this book that knack completely eluded me! Thanks so much for this cookbook.

I love my iron skillet so I was excited to check this book out. There is so many recipes that I did not know that you could make in a cast iron skillet. Cannot wait to try the Mac and cheese recipe!

"I was provided with a complimentary copy of this book so I could give an honest review." I am usually a picky person about recipes from a cookbook. Any more they are the up and coming recipes, using ingredients I have never seen or heard of. But not this book, it is full of down home cooking recipes, many of which I can't wait to try. They are easy step by step instructions and best of all I know what the ingredients are. A must have if you are interested in the care and use of your cast iron cooking utensils.

I have never read a recipe based on cast iron cookware. But, cast iron is found at home from my childhood and my mother prepare most of items with that old cast iron cookware. It seems to be very easy to cook with cast iron and it takes only very little time. I can never forget garlic chicken and delicious moffy beef prepared in cast iron. Now I want to taste it again. This book contains delicious recipes with traditional tips.

Very useful
