Plants From Pits: Pots Of Plants For The Whole Family To Enjoy

Synopsis

What do avocados, apples, mangos and tomatoes have in common? The answer is that they can all be grown at home, for free, from pips that you would otherwise throw into the recycling bin. *Plants from Pips* shows you how to grow a range of fruit and vegetables, indoors and out, with minimum equipment and experience. This complete guide covers everything from the science of how plants grow to how to deal with pests and other problems. Find out what to grow, what to grow it in and when and where to grow it for the best results. Packed with colorful photographs and step-by-step illustrations, this is the perfect way to introduce beginners of all ages, from 6 to 60, to the joys of watching things grow.

Customer Reviews

Holly Farrell spent two years at RHS Gardens Wisley where she gained the Wisley Diploma in Practical Horticulture, and the RHS Certificate and Diploma (both with Commendation), and where she won the Nicholson Prize for overall contribution to RHS Garden Wisley as a trainee. After working as Head Gardener on a private estate she now combines designing and improving gardens for private clients with her developing career as a garden writer for publications such as *Kitchen Garden* and the RHS magazine *The Garden*. Holly is the author of *RHS Plants from Pips*, *RHS Gardening for Mindfulness* and *Planting Plans for Your Kitchen Garden: How to Create a Vegetable, Herb and Fruit Garden in Easy Stages*. She lives in Oxfordshire.

This is a beautiful book with lovely illustrations. It's a nice size as well, something I can reference easily. However, the book is extremely basic in its information. Not only does it not address which "kitchen scraps" can actually be used, the first half of the book discusses how plants grow and seems almost childlike in its simplicity. The "pits" that are mentioned for growing are common and most of this information is found in any other gardening book. I expected more than recycled information in a pretty new package.

Great book with an excellent idea. Planting with the kids from dinner scraps is a no-brainer, and the directions are very straight-forward. Didn't like price change when I went back to buy another; otherwise this would have been a 5-star rating from me.

Disappointed

Lots more than just the fig seeds I was initially interested in. Good info.

Love this book, I have grown several plants so far looking to grow more soon

Item was exactly as described. Thank you!

Kids are loving this!

The book was for my Grandson and he loves it. Today he using the cheese cloth to clean berry seeds to plant
