Hard Impact: A Jason King Operation (Jason King Series Book 0)

Synopsis

FIVE YEARS BEFORE RETIREMENT, JASON KING PREPARES FOR WAR...A drug gang has its production facility buried deep in the heart of the Rainforest. Sensing that law enforcement are closing in, their mercenaries storm the U.S. embassy in Lima, Peru, taking three American hostages back with them into the jungle. The next day, government black-ops operative Jason King lands in Iquitos. A single-engine plane will fly him into uncharted territory. He will skydive from 14,000 feet into the rainforest, armed to the teeth. He will retrieve the hostages, at any cost. It doesn't take long for all hell to break loose. **HARD IMPACT IS THE PREQUEL TO THE JASON KING SERIES.**

Customer Reviews

Hard Impact by Matt Rogers follows elite special forces soldier Jason King into the jungle as he attempts to rescue several Americans after they were kidnapped by drug cartel hit men. Jason King comes across as an absolute warrior. From his knowledge of cutting edge weapons to his tactics on the battlefield, he is at the top of his game and those on the other side better be careful. As King makes his way through the story, he takes down the bad guys one after another. Near the end though he is forced to make a very difficult decision: does he protect the final hostage all the way to

extraction from danger or does he go back to make sure the bad guys are never able to do harm again? Hard Impact was a very fun story to me. I couldn't help but feel like I was reading a novel version of the Rambo movies. The one man taking on the entire enemy army is a bit played out, but it is still fun to dive into from time to time. The action sequences were over the top, so fans of realistic military fiction will have issue there. However, those who are fans of action on the level of Bruce Willis in Die Hard will rejoice in the sheer insanity of the battles. There are times that the narrative gets a little loose, but it moves at a steady pace and keeps the reader interested. Overall, I liked it and I look forward to seeing what the rest of the series has to offer.

Jason King books certainly get better and better. My sincere regret is I am "at the end" of the four book series, until MATT ROGERS produces new work for consumption. This book is filled with action, terror, and intrigue. In HARD IMPACT, Jason King goes into the jungles of Central American to attempt to rescue American hostages kidnapped by a drug cartel. Like his other books, this is a fast-paced, edge-of-your-seat, bite-your-nails-until-they-bleed military action thriller. I read this book in two days, but fortunately I was "away from home" at a medical meeting without any patient responsibility. The author's military experience makes his action sequences, and "track them through the jungle" scenes very believable. The plot moves just as quick as the action. And for the critics who say that Jason King is too often "over the top" - one should read the Medal of Honor citations for MGS Roy Benavidez (Vietnam), or MSG Ola Lee Mize or Captain Lewis L. Millett (Korea) Or Sergeant Charles Coolidge or Corporal Desmond Doss (WWII) and then decide what is really "over-the-top" Strong work, Matt Rogers. Keep 'em comin'!

Kind of mixed feelings here. The premise behind this series interested me, but I felt a little off by the bland vanilla writing. I am an action junkie so I thought I would give this series a shot, and picked up 3 of these titles for like \$0.99 each (or free). Maybe I am a bit jaded but it just seems to me the author was a little too generic on this. Some readers are put off by too many details on weapons and tactics, but I kind of like those details. Now don't overwhelm me, but show me you/your character know your stuff. Just got this feeling that Matt just did a little research and went off from there. I question the way that some of the things were handled, like using real names over the radio instead of call signs. Don't keep telling me that your character is Johnny Bad-Ass, show me with deeds and actions that your character did to survive. Jason King was okay, but he did pull off a couple of dumb moves that got some soldiers killed. And the author knocked off 4 Delta operatives like they were rookies. .Still, the ending was very exciting (except for the quick dismissal of the Delta

soldiers) running thru the jungle. I will probably check out the next Jason King (Isolated) just to see if the story style improves (plus I already own it). If this was a movie, it would be very B level direct to video low budget flick.

First of all, if you're looking for a Tom Clancy spy thriller with twists and turns at every chapter, keep shopping. But if basic, yet a little predictable thriller is what you like, I give it a thumbs up. Jason King, the main character and a soldier with a hundred lives, delivers great action, and the story is interesting, so if action, violence, and killing is your thing, like it is mine, this book is for us! Who needs new characters, and stories every chapter that make no sense until the last 2 chapters? This book is one story, one plot, and lots of action! What more can you ask for?

Hard Impact is an interesting action packed, fast paced thriller. Though the story is not new and events and scenes seem to be more legacy style. The story is about heroism of special-ops hero Jason King and how he rescues the hostage from the kidnappers in dangerous conditions far from own land. The novel is about the heroism of Jason King, who saves the Americans from the hands of devils (who hurt innocent people). So there are elements of bravery, danger, violence and drama in the plot. This seems to be the first book in the series, which means we can expect to see more thrillers about Jason King, the hero. It's a good start and hoping the future ones will surprise us with an even better variety of plots. All in all a short good traditional plot, somewhat captivating, motivational and a good read.

This is a superb book in the genre. I finished it in one sitting because i could not stop reading! Hopefully, there are REAL guys in this world who approximate what Jason King does - We need them! This is definitely an author to watch - I have already ordered his other books and hope he writes MORE!!! SOON!!!

Hard Impact was the seventh Jason King book i have read during this past two weeks.. I could not put the Kindle down. It drew me in like I was literally watching it unfold as a long movie! This series of 6 and then the 7th book were so well written it makes me wonder if Mr. Rogers was in some tough military conditions himself - it was so believable! I would recommend this set of books to anyone that wanted a keep on the edge of your seat type of action suspense thriller.
