# From Deep Space With Love: A Conversation About Consciousness, The Universe, And Building A Better World

## Synopsis

From Deep Space with Love gives readers the chance to listen in on a fascinating conversation between one of today's most celebrated New Thought leaders "New York Times best-selling author Mike Dooley" and Frank, a collective of eight beings who currently live in a distant galaxy, channeled by Tracy Farquhar. The book is divided into four parts: Life on Brahoska (Frank's planet), Life on Earth, The Greater Universe, and Building a Better World. Topics include: Brahoska's culture, relationships, technology, leisure, conception of time, and much more. Aspects of Earthly existence, from current political and social realities to the truth about the Loch Ness Monster, Angels, divination, other dimensions, and what we can do to make a better world, starting now. Drawing on the experiences and wisdom of Frank's much older civilization and the trials and tribulations they have moved beyond "which once rivaled those we're now undergoing on Earth" From Deep Space with Love is a compelling, irresistibly readable guide to a new era. Readers will find their awareness expanded and their beliefs stretching to encompass ideas that challenge the status quo and reveal the true limitless nature of the Universe "and of humanity itself.

## Customer Reviews

I found this book to have the answers to many of the questions I have been asking. Knowing we are not alone, comforted by the group of consciousness sharing their experiences and knowledge. Highly recommend the audio book with the writer's narration.

Like anything that is written by Mike Dooley, it is unique and on the edge. If you have never read anything channeled and you're into the metaphysical, you don't want to miss this.. This one is startling, but so, so warm. I can't give it away. Read.Read.and.love.love.this.book.

Sorry Mike! But I did find this book a bit boring. Maybe too wordy? Didn't really learn anything that new. I still love Mike Dooley though...is great at most things he does.

Interesting read. This one is better than Tracy's prior book from Frank. Lots of warm and fussy statements. I like all Mike's books.

Almost done reading the book. Really enjoy it! Wish our planet could get to the point that Frank's planet has.

I am truly inspired by this work. I enjoy reading it and find that I feel hopeful and positive afterward. I am ever thankful for words of hope and love in a world that sometimes seems so negative. Thank you Frank, Tracy Farhquar and Mike Dooley.

I love all of Mike Dooley's books and this was no exception. He brings clarity and ease of understanding to subjects our mind just can't wrap itself around. Good questions, clearer answers. Integrating these ideas will not only help you on your fantastic human journey, but also those around you.

This author shares insights about the world today, and the transformation that is taking place on our planet. Whether or not one believes in communication from beings from outer space, the messages are of hope, and the power of love to move humanity into a more unified, gentler, and

compassionate relationship with the earth and each other.
