Kath Dalmeny has contributed numerous articles to art and craft magazines, including Creative Ideas and Art Course. She is also the author of Dolls' House Details. Kath enjoys applying her craft skills to the world of dolls and dolls' houses, working in polymer clay, wood, fabric, paper and card, and delights in inspiring others. --This text refers to an out of print or unavailable edition of this title.

Love this book. Gave me a lot of ideas for my miniature house.

This book has a lot of projects that I like and will do. Sometimes the directions are a little vague. There is a lot of projects packed into this little book. I am glad I purchased this book.

This book is fantastic. It shows so many things both small and large to make for your dollhouse or doll store. There is a complete American diner with jukebox,, bar, booth and many more.

Very informative book, with good tips on How-to. Very nicely illustrated and the instructions are clear. Have found tips not found elsewhere. Contains a list of suppliers. I recommend this book to all do-it-yourselfers!

Nice photographs.

This book is great for those who like to make special items for their dolls house and also explains the various styles of the period

Fast, exactly as described

I have a home library, which has a section devoted to dollhouse miniatures. I enjoy looking through the colorful ones over and over. The older ones or instruction ones I keep for reference. I tend to purchase only those books that are worthwhile for reference, or to browse through over and over for inspiration and enjoyment. At 144 pages, this colorful book is a step-by-step illustrated guide to making ninety (90) authentic miniatures in fifteen (15) styles including a Tudor Banqueting Hall, 17th-Century Lying-in Room, 18th-Century Merchant's silver Room, Colonial Dining Room, Chinoiserie Sitting Room, Shaker Work Room, a small town store, American settler's Parlor, Victorian Dining Room, old curiosity shop, Frank Lloyd Wright Sitting Room, 1920s Living room, American Diner, 1960s country Kitchen, and Modern Apartment. Each chapter includes the overview for that room, then includes step by step instructions on how to make furniture and accessories for that period room. The final page(s) of each chapter includes a full color two-page overview of the finished room. Learn how to make a fireplace, a door, a sofa, leaded windows, and more. There is even a four page section at the end of the book called the Doll Gallery that includes details and small color photos that show what each period doll looks like and information about the period they inhabit. This is another book I intend to keep and browse over it again from time to time for sheer enjoyment. All in all, if you are a miniaturist enthusiast or enjoy reading about them, this is a worthwhile purchase. You can't go wrong with this one.
