Taken Into Custody: The War Against Fathers, Marriage, And The Family

Synopsis

Taken into Custody' exposes the greatest and most destructive civil rights abuse in America today. Family courts and Soviet-style bureaucracies trample basic civil liberties, entering homes uninvited and taking away people's children at will, then throwing the parents into jail without any form of due process, much less a trial. No parent, no child, no family in America is safe. The legal industry does not want you to hear this story. Radical feminists, bar associations, and social work bureaucracies have colluded to suppress this information. Even pro-family"" groups and civil libertarians look the other way. Yet it is a reality for tens of millions of Americans who are our neighbors.""

Stephen Baskerville is Assistant Professor Government at Patrick Henry College and president of the American Coalition for Fathers of Children. He holds a Ph.D. from the London School of Economics and is Earhart Fellow at the Howard Center for Family, Religion, and Society. The author of more than eighty articles and studies on fatherhood and family issues, he has appeared widely on national radio and television programs.

I've met the good Dr. He is a serious academic. He is also sadly, spot on in his analysis of what is going in the super secret world of "family court". When a parent loses a child it is tantamount to the death penalty in terms of how badly it can affect a person, man or woman. This tome is thorough, well researched, and dead on the mark in terms of the impact of no fault divorce on the nuclear family. It is a sad read as well as a real eye opener.

Glad I read the book before I filed a Federal Lawsuit against the divorce judge and the attorneys or I would have know that I cant win against a corrupt system. Dr. Baskerville has exposed the Feminist underground to the Fatherless in this corrupt world. I have had my child, my job, my life, my savings, and everything else stolen from just a divorce. You cant get blood from a turnip, but you can put "him" in jail

The constitutional rights of families in America are being violated to fuel an evil money hungry industry who steal children and jails parents. Mr. Baskerville gives details how our families are ripped apart in family court. Shameful. The entire system should be done away with. Read this if you have any dealings with divorce, custody, courts, social workers, etc. Try with everything you have to resolve your differences without the system. Your families happiness and well being depend on it. Do not fall for their schemes to entrap you to give up your very lives. The only winners are the people who make their living by this evil system. Mom, Dad, children and other family members will lose with the involvement of court.

Even if you have no interest in family law matters, if you're a patriot who believes in freedom; GET THIS BOOK! If you're a patriot and think you have the books that matter, I'm here to tell you....you don't. You'll realize that you didn't have a clue after you've read this book. The NSA have nothing on Child Support. People TALK about this country becoming a Police State. This book will convince you it's already here. Get this book and The War Against Boys by Christina Hoff Sommers. This gal kicks some Liberal Fascist ass-Big Time! Next to Horowitz Indoctrination U, (and still she might even do a better job), there is no book out there who shreds the Femi-Nazis like Sommers does. These should be sold as a gift set. Really; your library is incomplete without these two books. The Introduction in Baskerville's book alone will both break your heart and start your mind wondering where you can get a copy of An Anarchist's Cookbook. You will be kicking over the furniture and wanting to put a gun to your head at the same time. There was an article I read the other day; All Your Children Belong to Us by Glenn Cook, talking about the over-reach of the nanny state in Scotland. I sent him an email with the above two books. He was close, "but no cigar". This is one of those "Bibles" you'll keep close to hand and scream every once in a while because the whole Introduction isn't readily available to spread online like a religious tract.

Even with several years on multiples of Best Seller lists, this critical and seminal work is shunted to

the side. However, what Dr. Baskerville exposes is the very motivation behind the Men's Revolt in the 2014 elections. It was the men who emptied Congress and the Statehouses of abusive politicians who have used gender and race to divide and abuse. This book explains the present and much of the future to come.

I applaud Dr. Baskerville's delving into a subject that has been so thoroughly ignored in our society: the undermining of the role of fathers in raising a literate, stable generation of children in the reality of 50%+ divorce rates. He brings forward many poignant examples of the erratic inconsistency and outright flagrant abuse and excess in the family court system. Situations that, rather than promoting the "best interest of the child" as promoted by the Court system actually result in their detriment. Unfortunately, the delivery is very academic and dry. The message is repetitive and monotonous. In reading it, one feels as though they are being clubbed by the message. I feel this detracts, rather than enhances, what should be a very significant message to those who are not aware of the issues faced by "disenfranchised fathers", and the corruption of the system that is purportedly put in place to protect children.

I believe the family is the foundational unit of society. Destroy the family and you destroy society. This book reveals some of the efforts to destroy families. I am only part way through this book so far, but it is excellent so far!

Fantastic book. Everyone should read this before going into a marriage.
