The Redbook: A Manual On Legal Style, 3d (Coursebook)

Synopsis

Since the first edition was published in 2002, The Redbook has established itself as the most authoritative, comprehensive, and easily usable manual of legal style. Written by Bryan A. Garner, with contributions from all six lawyers at LawProse Inc., The Redbook covers everything that mere citation manuals don't and can't: punctuation, capitalization, grammar, prose style, and clarity in general. The Redbook is an eminently usable reference book. Written in the style of a restatement, the black-letter rules are followed by exhaustive comments and illustrations.

Customer Reviews

Bought this as a supplement to the Bluebook. The examples can be a little hard to follow and not have enough information on a certain topic. However, with this, the Bluebook, UMB, and Coregrammarforlawyers.com (highly recommend) you should be set!!

This book is the bible for legal style. If this book were a dessert, it would be 20,000 calories. It is that rich in content. A must have for any law firm, and for young and old lawyers who either are learning to write, or need some help.

Anyone familiar with Garner's work will be unsurprised by this pithy, essential guide to legal writing. If I see lawyers do something two different ways, I refer to this book to find out which is right. You can be a good lawyer without being a good writer, but it's certainly easier to be a good lawyer if you

are a good writer. You owe good writing to your readers, whether judges, clients, or other lawyers.

The prepositional phrasing section alone justifies the cost of this book to me. This book has saved me countless hours in the editing phase of legal writing. E.g., getting hung up on seemingly unclear phrasing or over-tinkering with layout. When in doubt, just look in the book. The rules/guidelines/best-practices break a lot of editorial ties for me and gives me confidence in my editorial choices. I think this is worth the cost because I intend to use it forever.

Do you just LOVE managing edits? Are you a fan of knowing your grammar rules head-to-toe when it comes to legal writing? Well this is the book for you! Improve your writing like never before or criticize someone else's! Either way, The Redbook is a huge win-win. The ebook version is nice because of the search function too.

school book

had to buy it but idk if it is really useful or not but it was new

Very useful for legal writers.
