Customer Reviews

There are some great ideas and samples in this book. I particularly really like that they have "recipes" for most of the planters shown. I did learn more about how to plan (plants of similar sun and water requirements) and plant containers. Time will tell if I am successful. Very pretty book!

It's a nice coffee table book; however, I can review the SAME information via the website. Quite a disappointment coming from SL!

Love this book. The pictures are vibrant and they're easy to follow directions. It also looks great on my table

Beautiful, helpful book. Lots of great ideas and easy to follow, clear instructions.

Just a great book! So many great ideas. I will refer to this one a lot!

Gift for gardening wife. She liked it.

Use for my Garden Club projects

Wish they gave you more detail.
