thank you

This is an excellent book. As a practicing criminal defense attorney I have found it invaluable.

A very thorough and easy to read guide to interviewing and interrogating. Fascinating topic! The Reid Technique is the real deal.

Still need to read it

Even if you aren't a student, if you're in a profession where you need the cut through people's bs, this is the resource you need. Very effective.

This book serves as a great tool to maintain the REID interview and interrogation skills. I got this book along with another two books that are REID-related and they're all I'll ever need when I want to spin myself up on this extremely useful technique.

Great book and price!!

Perfect transaction. High quality text with practical information, as well as sound theory. Necessary for any serious criminologist.
