## Customer Reviews

This book has covered satisfactorily the areas of psychic development and has taught me how to improve and develop my own psychic abilities. This is a great book in helping us unleash our psychic abilities that are long silent and is sleeping deeply within us. This book has provided many different methods for further development of ourselves and our ability and enables us to be in-tune with the universe and different things that it's trying to communicate to us in no time. What a great and helpful book this is, giving us the knowledge of some impossibilities we thought it was.

After my Dad died, I could hear him talking in my head, and actually see him in his backyard while I was working. As time went on he would tell me what the house needed for repairs and I fixed it. As time went on, I cared for my mom and the sounds and sightings of Dad slowed down until one day, I saw a door shut in my head. After consulting a psychic friend of mine; I explained what happened and why did I lose this small ability. Her answer was "you are under too much stress and when your brain can handle this, it will come back" I purchased this book for more understanding. I like it a lot and have recommended to a few friends.

I am not greatly into psychic powers and stuff but what this book catches my attention is about the third eye thing. Since I was a child I always want to have my third eye open but up to now nothing like that happens. Because of that, I purchased this book just trying to try my luck in this if it can entertain me. I am a kind of a person who's very picky when it comes to books that I have read and this one somewhat like a magnet and I don't know why. Most of the book is amazing and fantastic specially with how psychic things and stuff happened with the use of mind. Still, I don't believe psychic powers but this one is a great book and let me doubt and confused about everything I know about psychic matters and stuff.

This book is very descriptive about many different areas of psychic abilities. How to develop them and how to strengthen them.

its very informative and interesting. thank you John Rigby i really appreciate your writing and enjoyed learning more. hope i improve my psychic power.

Very easy to understand and follow the different types of psychic abilities, good book for beginners and the experienced people.

Such an interesting read. Have always been fascinated with the psychic mind and this book helped me understand a great deal.

I will keep this as a guide. This is great for concepts and great for learning. While many don't believe in this, this is a great guide for those who want more or those who need to learn to meditate properly.
