Traveling In The Spirit Made Simple (The Kingdom Of God Made Simple) (Volume 4)

Synopsis

Is spiritual travel just astral projection or does God use it today? Many Christians today say they are traveling into the heavens, but others are not convinced that "spiritual travel" is used by God. The reason could be that no one has provided convincing evidence showing how it is different from astral projection. If you're uncertain whether spiritual travel is used by God or only by the New Age and the occult, this book will help you uncover the truth. The author compares astral projection and spiritual travel side by side. His research suggests that they are not the same thing. He provides a thorough examination of the scriptures which demonstrate that the prophets and apostles have been traveling in the spirit for centuries. Far from being restricted to the occult, spiritual travel is actually a tool that is intended to be used by God to accomplish His divine purposes. With the same down-to-earth teaching style he used in *Seeing in the Spirit Made Simple* and *Divine Healing Made Simple*, *Praying Medic* provides Bible-based teaching, dozens of testimonies and simple illustrations that will help even the least experienced person understand spiritual travel. Exercises are provided at the end of key chapters to help activate your spirit. *Traveling in the Spirit Made Simple* can help you in the practice of divine healing, deliverance, intercession and many other forms of ministry. But most importantly, it will help you know God in a more personal way. This book is part of a series *The Kingdom of God Made Simple* – a self-study course designed to train believers to live the life offered to them as heirs of God's kingdom. Customer Reviews

There's some very helpful information, and I've enjoyed other PM books very much. I'm almost finished with the book (chapter discussing portals) and going to put it aside for now. I'm a very open minded Christian, but I'm not sure even I feel comfortable with some of this stuff (praying portals into existence; intentionally having your spirit out there). Just be careful. I did enjoy reading accounts of events that some would call dreams or visions and others would call spirit travel. I did learn from this book. I'm glad I bought it, but I think I'll trust my own gut on some of this and say I don't feel comfortable with all of it.***** edited *****I finished the book so I could give an entirely complete review. I also needed to step away and prayerfully consider the book and how I should complete this review. I've also listened to the most recent podcasts from Praying Medic. I've seen PM on Sid Roth's It's Supernatural show, read his other books, learned valuable tips. I was a huge fan! The other Made Simple books were great, but I didn't feel comfortable with some of this. Knowing that the devil mixes truth with lies, I'm not going to ignore the parts I don't feel comfortable with. He released a trapped angel? Couldn't praying portals into existence be spiritually dangerous, and Biblically should we pray portals into existence in the first place? What about traveling out of the body at will whenever we want, just go up to heaven? It's not that I don't believe out-of-body experiences are real. I know they are because I dabbled in the occult before Jesus saved me. Perhaps my own past is what makes me question the topics and teachings in this book. Having dipped my toes into the mist of darkness previously, I do recognize darkness. This doesn't seem right to me. Not everything seems full of light. The latest podcast led me to unsubscribe from his podcasts, as well. I'm getting away from this series I once thought was absolutely amazing. I'm not changing my 3-star rating. Praying Medic is a talented writer, and I admire his ambition. I just think this is the last book of his I'll read. I want to stay on the right path, and I'm concerned this isn't it. The fact I cannot make peace with these questions, the fact I have wrestled with the question: "Is this 100% Biblical" gives me my answer. Be very careful. Research his guests and his mentors to see if their teachings are entirely biblical. Researching his guests, I also don't feel comfortable with floral

essence drops which open spiritual senses and bring dreams (because this reminds me of witchcraft) and don't feel comfortable with intuitive prophetic readings for sale (because this reminds me of fortune tellers).

This is an amazing book. It is a treasure trove of information! I feel that this book is more than a meal it is more like a banquet. As a writer, I have only had my own life as research and never actively researched a subject that I have written on, but *Praying Medic* shows us what a great book that can come from great research and careful planning. *Praying Medic* goes into many aspects of travelling in the spirit with a depth that has meat on it, and yet it is not too bogged down with information and research that it became dry like so many books. The result that we got in this book was a book where a novice to travelling in the spirit could learn heaps, whilst people who have participated in it to some respects could also glean from it. As a writer and teacher, I look at the quality of this work, its purposes and its objectives, and I see once again that this book was not rushed, or hurriedly put together, and it hasn't been written with an objective mainly of selling a book, but it is primarily a book that attempts to teach, equip and impart knowledge. Some people may have had a lot more experiences in travelling in the spirit than the author, but few of these people have been able to put together such an enjoyable, easy to read, conversation on this subject in one accessible place. I hold *Praying Medic* in high esteem and am happy to know him personally. As a person who has seen Jesus in heaven, visited my mansion in heaven, travelled in time and done some exciting things, I would say I am still a novice. Michael Van Vlymen and *Praying Medic* are not only great writers, but they bring us exciting topics and give us plenty of great stories to read. I expect this book will bear great fruit, and I commend you to it! Matthew Robert Payne

PS This book gives you a real understanding of why travelling in the spirit is not astral travel.

Postscript/UPDATE Hey, if you read this book and it blesses you, please take the time to post a review of it. Every good review helps people make a decision.

The author, *Praying Medic* (PM) delivers an insightful, encouraging, and well written book. His writing style is easy to follow and filled with numerous Biblical references. Though the subject of Spiritual Travel can be controversial due to many factors, I have to say PM's style of writing is not dogmatic. His words are well chosen and he goes the extra mile to explain his points. I highly recommend this book and author. If you are a Born Again, Spirit Filled Christian and have an interest in the Supernatural, then this book is for you. Read it with an open mind and let the Holy Spirit be your guide.

Very interesting for a curious beginner. Praying Medic explains exactly what traveling in the spirit is & is not. Then he gives exercises in how to do it. He provides scriptural evidence to show that this is a legitimate practice for Christians & is not astral projection. I realized I should probably read his book "Seeing in the Spirit" also and learn that first. It seems like a more natural & safer progression. I agree that God is releasing such information like this to Christians at a time when it is truly needed. We need to be aware of the spiritual abilities that God has made available to us to be of use in His service to others. This is meant to be a tool for us to use. It's time we became aware of who we are as spiritual beings, since we are seated in Christ Jesus in heavenly places. We don't all have to do this, but we can. Follow the Lord's leading in all things.
