Customer Reviews

I love the genre already about actual events involving haunted houses and such. So, this book was already on my radar. Boy was I glad I bought it. It is just packed with some of the most intense stories you could ever imagine. There is no explanation to many of them as to what exactly is the trigger for the paranormal events. I like the stories by themselves even if they weren't true. Though, the fact that they are true makes this book just that much scarier than you could ever imagine. I want to visit these places now, if I dare...

I enjoy reading about the paranormal and this fit what I was looking for. Amazing stories with background information on each helps in getting to know the location better. Joseph A Mudder did an excellent job providing us with chilling accounts

Thoroughly enjoyed reading this book and learning a few things too. I firmly believe in the paranormal. Will read more of your books.

Mr. Mutter did a great job in this book. It was chilling and gave a lot of information. It was a lot of fun for this paranormal loving reader. The only problem was I didn't wanted to end.

These are some really scary stories. But I love a good scare every now and then! I might visit these places as a result

The stories were good needed more detail, all in all a good read.

Standard. Stories.

It is creepy, I'll give it that.
