# Eye Of The Needle: A Novel

## Synopsis

The worldwide phenomenon from the bestselling author of *Fall of Giants*, *Winter of the World*, and *Edge of Eternity*. His code name was *The Needle*. • He was a German aristocrat of extraordinary intelligence "a master spy with a legacy of violence in his blood, and the object of the most desperate manhunt in history. . . . But his fate lay in the hands of a young and vulnerable English woman, whose loyalty, if swayed, would assure his freedom "and win the war for the Nazis. . . .

## Customer Reviews

I think that Ken's ability to develop a story that just sticks to the reader is amazing, and this is one of those books that just grab you by the brain and it won't let you go until you finish it! It's a real story and the way he writes about it just makes it very interesting from a point of view of excitement and always makes us ask ourselves "what's next!?"

I read this book years ago, before I had much of an understanding of many of the nuances of D-day. The story is tight; characters well developed and I had totally forgotten the ending. Anyone who

loves/likes Follett, Baldacci, Brad Thor etc. will enjoy this book.

WWII spy novel at it's best ... If you love a good thriller with WWII as the back drop with the outcome of the war riding on who gets it done best ... This is for you !!

This thriller is replete with twists and turns to keep the reader guessing. I enjoyed how the author developed the characters and the settings off the English coast. I did not see the movie, but I may try to view it to see if it inspires like the book.

I love books about WWII - especially historical fiction based on actual facts. This was a book I didn't want to put down. It was my first by this author but won't be the last.

Had seen the movie years ago--love Ken Follett--read this ebook in one long sitting--lapped it up. Follett has a wonderful way with prose that are descriptive--yet the plot still moves along at a jaunty pace. A great read!!!

This is actually the first audiobook I've had that wasn't a BBC play but used different voices for different characters. It made listening a real pleasure, esp. as it got rid of the "he said," "she said." One narrator for the rest of the book not in quotations. It's an early Follett and a WWII spy adventure with some (limited) basis in fact. A wonderful read/listen. I only wish they had Key to Rebecca on audiobook. It's another worthy early Follett WWII adventure/spy story.

I got this after having read it years ago recalling it as an exciting read. I thoroughly enjoyed this WWII spy novel enormously. As usual with Follett's novels, it is very well researched and vividly described. I recommend this highly for those looking for a great read in this genre.
