I purchased this book following a yoga workshop where its merits were highlighted as a way of promoting positive changes and outlooks in life. I have gone through just one New Moon phase since receiving the book and have already begun realising the benefits. It is well written, concise and clear and is easy to work with. The simple fact that humans have followed the moon phases

throughout history to reap the benefits of sowing seeds under the New Moon for the most fertile and flourishing crops is enough to indicate that this phase can bring abundance in all other areas of life as well....use the positive energy force with positive thought and intention and it makes sense that the life source follows that guidance.If nothing else, the book teaches positive thought patterns and allows a shift in conscious decision making for positive existence in every aspect of life.I am enjoying working easily with this uplifting book and look forward to the happy times unfolding ahead.

A friend of mine introduced me to wishing on the new moon and reading excerpts from this book made me want to have it in my possession. So far many of my wishes came true (almost all of the ones in my sun and moon signs!) and this book helps me to continue to make wished in alignment with the astrology of the moon.

The book content is awesome. However, the ones sold by (I have ordered two) seem to all be improperly bound with imperfections in the graphics.Although I usually give my money to , I would buy elsewhere in this case.

My friend gave me this book and I used it for a few new moons many yrs ago and put it away. I have recently go back into writing intentions during the new moon and found the ones I wrote yrs ago based on this book have mostly come true, about 80%. If you're into writing your intentions and cycles of the moon, I suggest this book.

Great book & very informative!

Great book just from a brilliant Astrologer. Highly recommend it.

I love Jan Spiller's books and I was sorry to hear that she's passed on. She left a great legacy and this particular book does not disappoint. Use the tools in this book at the New Moon cycles and observe magic happen!

This is it! It has so much practical, easy to understand, useful information that can help you understand your self and those around you. Highly recommend.
